

ANANYA IYER

Cloud Architect & DevOps Specialist | GCP · Kubernetes · Terraform

ananya.iyer.cloud@gmail.com | Pune, India

PROFESSIONAL SUMMARY

Certified GCP Cloud Architect with deep expertise in multi-region cluster management and zero-downtime migrations.

CORE TECHNICAL SKILLS & COMPETENCIES

- Languages & Runtimes: Python, Go
- AI, ML & Data: Terraform, CI/CD, Python, Go
- Cloud, DevOps & Storage: GCP, Kubernetes

WORK EXPERIENCE & KEY IMPACT

Senior Engineer / Technical Lead	Enterprise Engineering Labs	2022 · Present · Bengaluru / Remote
· Led end-to-end architecture and deployment of high-throughput distributed microservices handling 50k+ daily requests. · Implemented low-latency inference pipelines and vector embeddings achieving sub-100ms P99 latency SLA. · Designed CI/CD automation and containerized multi-cloud deployment with Docker and Kubernetes.		
Software & AI Solutions Engineer	NextGen Technologies	2020 · 2022
· Engineered modular REST APIs and async worker queues with FastAPI, PostgreSQL, and Redis caching. · Collaborated cross-functionally across product, design, and engineering teams to accelerate product release cycle.		

KEY ENGINEERING PROJECTS & SYSTEMS

Enterprise Autonomous AI Hiring & Assessment Engine	(Python · FastAPI · PyTorch · PostgreSQL)
· Built explainable multi-agent recruitment platform with rubric evaluation and sub-second pgvector semantic search.	
High-Throughput Real-Time Stream Processor	(Redis · Kafka · Python · Next.js · Kuber)
· Developed streaming event processor with tenant RLS isolation, audit telemetry, and real-time WebSocket metrics.	

EDUCATION & CREDENTIALS

Bachelor of Technology (B.Tech) in Computer Science & Engineering
Indian Institute of Technology (IIT) / Premier Engineering University | Graduated with First Class Honors
