

ALEX CHEN

Senior AI & Distributed Systems Engineer

San Francisco, CA | alex.chen@stanford.alumni.edu | (415) 555-0199

PROFESSIONAL EXPERIENCE:

VectorAI Technologies ? Lead AI Platform Engineer (06/2021 ? Present)

- Designed and deployed real-time RAG semantic retrieval microservices in FastAPI.
- Scaled ChromaDB vector collections to 10M+ documents with sub-25ms P99 latency.
- Orchestrated cross-encoder re-ranking pipelines using PyTorch and HuggingFace Transformers.

DataCore Cloud Solutions ? Machine Learning Engineer (01/2019 ? 05/2021)

- Built containerized model inference workers with Docker, PostgreSQL, and Redis.
- Implemented automated feature store pipelines in Python and Pandas.

TECHNICAL SKILLS:

Languages & Frameworks: Python, FastAPI, PyTorch, Node.js, React, SQL

Databases & Cloud: PostgreSQL, ChromaDB, Redis, Docker, AWS, Kubernetes

EDUCATION:

Stanford University ? M.S. in Computer Science (AI Specialization), 2021

UC Berkeley ? B.S. in Electrical Engineering & Computer Science, 2018
